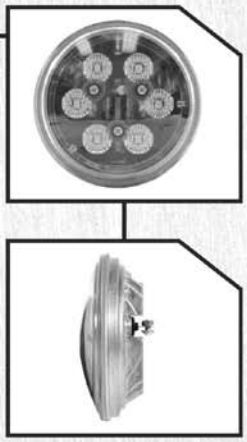
Bishopville, SC • 800-543-2451 • www.BakerAbileneMachine.com

The listed parts are all manufactured by various manufacturers. The use of the original manufacturer's part numbers, e.g. John Deere®, are for reference purposes only — the parts offered are not original manufacturer's parts. We sell replacement parts for use in the equipment of various manufacturers. Our company and the listed parts contained herein are not sponsored, affiliated, or otherwise connected in any way with the equipment manufacturers named in this catalog.

LED Floodlamp, Sealed Beam



AMRE336112

- Lasts 50 times longer than halogen lighting
- Vibration resistant
- No filament failures
- 6 diodes (3 watts each) provide 1440 lumens
- Draws less current than comparable halogen & HD lights
- 2-terminal connection
- Operating temperature: - 40 to 140 degrees Fahrenheit / - 40 to 60 degrees Celsius
- All new, remanufactured and recycled tractor parts have a one-year warranty

Fits John Deere® Tractors: 2010, 2040, 2240, 2510, 2520, 2840, 2940, 3010, 3020, 4000, 4010, 4020, 4030, 4040, 4050, 4055, 4230, 4240, 4250, 4255, 4320, 4430, 4440, 4450, 4455, 4520, 4555, 4560, 4620, 4630, 4640, 4650, 4755, 4760, 4840, 4850, 4955, 4960, 5010, 5020, 6030, 7020, 7520, 8430 (1974-1981), 8440, 8450, 8560, 8570, 8630, 8640, 8650, 8760, 8770, 8850, 8870, 8960, 8970, 9100, 9200, 9300, 9300T, 9400, 9400T

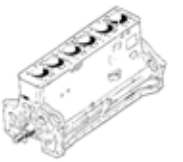
John Deere®—Tractor

Shortblock Assemblies



Our remanufactured shortblocks meet the highest-quality standards. All remanufactured components are inspected for structural integrity, cracks and dimensional specifications and remanufactured back to OEM specifications. The components are then assembled using the highest-quality new parts. Our reman shortblocks are backed by one of the best warranties in the industry.

Application	Description	Part Number	Retail Price	Core
3010, 3020 Early	Reman Shortblock Assembly 270 4 Cylinder Diesel	SBJD270DE3020	$ 4320.00	$ 1250.00

Connecting Rods

All connecting rods are cleaned and inspected for defects prior to remanufacturing. Rods are then shotpeened for stress relief and the size is checked against OEM specifications. New piston pin bushings are installed in each rod and bored to the correct center-to-center dimensions. The center-to-center dimension greatly affects the performance of your engine and is a step that many remanufacturers ignore. Final assembly of our connecting rods includes installation of new rod bolts and product dimensions, including bend and twist, are verified one final time.

Application	Description	Part Number	Retail Price	Core
3010, 3020, 4010, 4020	Connecting Rod Cast # R26047, R58880, R66923	AMAR70910	$ 120.00

John Deere®—Tractor

Oil Pumps, Engine

All of our remanufactured engine oil pumps are disassembled, thoroughly cleaned and inspected. All worn parts are replaced, and tolerances are checked to guarantee our oil pumps will perform to OEM specifications. The pump is reassembled and, as a safety measure, each pump is lubricated with Clevite Bearing Guard to ensure there is no damage during initial start up. Replacing the engine oil pump during an overhaul is a step many people overlook.

Application	Description	Part Number	Retail Price	Core
3010 Gas, 3020 Gas	Reman Engine Oil Pump	AMAR31884R	$ 625.00	$ 50.00
3010 Diesel Engine BSN 33000	Reman Engine Oil Pump 3 Piece Shaft and Gear Style, Cam Driven 15 Tooth Drive Gear	AMAR76546R	$ 625.00	$ 50.00

John Deere®—Tractor

Water Pumps

The remanufactured water pumps we supply have an extra step added to the remanufacturing process to ensure quality. Since the bearing and seal assembly are critical in performance, we ensure air tight seals by vacuum testing our water pump prior to packaging. This guarantees no leakage will occur after your water pump has been installed.

Application	Description	Part Number	Retail Price	Core
3010, 3020 - Gas	Reman Water Pump C/N - R26326	AMR26326	$ 105.00	$ 75.00

4010, 4020	Carburetor, Cast Housing	AMAR34242C-N6	$ 645.00	$ 100.00

Injection Pumps

All of our injection pumps are disassembled, thoroughly cleaned and inspected. All worn out parts are replaced and the pumps are reassembled with new gaskets. Pumps are tested for leaks and fuel delivery at low idle, high idle, full load, part load and starting. Any pump with an automatic advance system has the advance set. As an additional quality check, all pumps are tested with a special oil that will not varnish inside the pump.

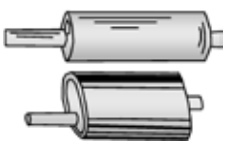
Mufflers and Exhaust



Our mufflers are manufactured by experienced craftsmen here in the United States. All mufflers have welded seams. Aluminized steel is used for critical components. These features ensure that our products resist the corrosive effects of air, heat and the by-products of combustion that work to shorten muffler life. Additionally painted either silver or black to cosmetically match its OEM counterpart, as well as add further protection from the elements.

Application	Description	Part Number	Retail Price	Core

Starters

All of our starters are disassembled, cleaned and inspected. Almost all units receive new field coils. If it meets OEM specifications the armature is test turned and under cut, otherwise it is replaced with a quality factory remanufactured or new part. Starters with factory solenoids have the solenoids replaced with new parts. The drive is carefully inspected and if it does not meet specifications it is replaced with new or quality factory remanufactured drives.
